They understand how baffling the college application process can be and they are there to help. Before submitting a college application, let experienced former admissions officers critique it. They have innumerable years of college admissions experience and have been admissions officers at the world's most prestigious universities including Columbia, Yale, University of Pennsylvania, and Cornell. Simply put, they know what makes a college application stand out.

Responsibilities and Achievements.

- Understanding and implementing the User stories and Story points.

Worked on the Hybrid Framework, which includes Pytest, Data Driven with Page Object Model Design Pattern Approach.

- Developed test scripts using Selenium WebDriver, Pytest, and Python.
- Performing Failure Analysis for Regression Run Results and Reporting the results.
- Direct interactions with Onsite Managers.
